PROFESSIONAL SUMMARY

Full Stack Developer specializing in React, Next.js, and Flutter with hands-on experience shipping production applications. Graduated BS Software Engineering, Indus University (January 2026). Built and deployed a live AI-powered SaaS platform with paying users, an SEO-optimized media portal, and three published Android apps. Comfortable owning features end-to-end — from Figma to Firebase/Supabase backend to deployment.

TECHNICAL SKILLS

Frontend: React.js, Next.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS

Mobile: Flutter, Dart — Android APK builds and Play Store publishing

Backend & Database: Node.js, Firebase (Firestore, Auth, Storage), Supabase, REST APIs

AI & Integrations: Gemini AI API, Google Maps API, Chrome Extension APIs

Tools & Practices: Git, GitHub, Figma, WordPress, SSR/SSG, SEO fundamentals

EXPERIENCE

GE Intern — Digital Learning & Innovation · Aga Khan Education Service, Pakistan (AKESP) Jun 2026 – Aug 2026 · Karachi

- Conducted primary research — site visit and structured interview — to document the current state of ICT infrastructure and curriculum across AKESP South Region's four Karachi schools
- Authored an 8-page research article identifying lab capabilities, curriculum gaps, and a five-year AI integration roadmap for AKESP South Region
- Proposed and prototyped Teacher Assistant AI — a web-based tool designed to give students real-time coding hints and provide teachers with an AI-reviewed submission dashboard, directly addressing the large-class programming challenge
- Backed the prototype concept with published academic research (CHI 2024) and designed a working Figma prototype of the teacher dashboard

PROJECTS

LeadHunter Pro — AI Lead Generation SaaS · Next.js · Gemini AI · Chrome Extension · Firebase

- Built a full SaaS platform with a paired Chrome Extension that uses Gemini AI to generate qualified leads from public web sources
- Shipped subscription dashboard, user authentication, and API rate limiting; live and acquiring paying users

TurkVerse — Media Portal · Next.js · SSR/SSG · SEO

- Architected an SEO-optimized media portal using Next.js SSR/SSG with structured data for search visibility
- Implemented dynamic routing, image optimization, and a performant category/search experience

APNNVCV — Resume Builder SaaS · React.js · Firebase · Tailwind CSS

- ATS-friendly resume builder with multiple templates, live PDF export, and real-time preview
- Firebase Auth and Firestore for user accounts and resume persistence

Society Management System — Admin & Resident Portal · Flutter · Dart · Firebase · Android

- Dual-role mobile app (admin + resident) for housing-society operations with real-time Firebase sync

- Shipped to production on Android (v1.0.27) and maintained through multiple release iterations

Finance App — Expense Tracker · Flutter · Dart · Supabase

- Cross-platform expense tracker with multiple chart views, Supabase cloud sync, and offline-first support

Ghumo — Pakistan Travel Explorer · Flutter · Dart · Google Maps API

- Travel discovery app featuring interactive maps, live weather, and hiking-trail data; published as Android APK

EDUCATION

BS Software Engineering · Indus University, Karachi 2022 – January 2026

Intermediate (Pre-Engineering, Computer Science) · Fatimiyah Boys College, Karachi 2019 – 2021
