Professional Summary

Software engineer specializing in React, Next.js, and Flutter, with hands-on experience shipping production software solo and in small teams. Built and deployed LeadHunter Pro, a live AI lead-generation SaaS (Next.js + Gemini AI + Chrome Extension) with active paying users, plus an SEO-optimized media portal and three published Android apps. Comfortable owning features end-to-end — Figma to Firebase/Supabase backend to deployment — and used to working async and self-directed as a freelancer. BS Software Engineering, Indus University (Jan 2026).

Technical Skills

- **Frontend:** React.js, Next.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS
- **Mobile:** Flutter, Dart — Android APK builds and Play Store publishing
- **Backend & Database:** Node.js, Firebase (Firestore, Auth, Storage), Supabase, REST APIs
- **AI & Integrations:** Gemini AI API, Google Maps API, Chrome Extension APIs
- **Tools & Practices:** Git, GitHub, Figma, WordPress, SSR/SSG, SEO fundamentals, async/remote collaboration

Projects

LeadHunter Pro — AI Lead Generation SaaS

Next.js · Gemini AI · Chrome Extension · Firebase — Live, acquiring paying users

- Built a full SaaS platform with a paired Chrome Extension that uses Gemini AI to generate qualified leads from public web sources
- Shipped subscription dashboard, user authentication, and API rate limiting end-to-end, solo

TurkVerse — SEO Media Portal

Next.js · SSR/SSG · SEO

- Architected an SEO-optimized media portal using Next.js SSR/SSG with structured data for search visibility
- Implemented dynamic routing, image optimization, and a performant category/search experience

APNNCV — Resume Builder SaaS

React.js · Firebase · Tailwind CSS

- Built an ATS-friendly resume builder with multiple templates, live PDF export, and real-time preview
- Implemented Firebase Auth and Firestore for user accounts and resume persistence

Society Management System — Admin & Resident Portal

Flutter · Dart · Firebase · Android — Published, v1.0.27

- Built a dual-role mobile app (admin + resident) for housing-society operations with real-time Firebase sync
- Shipped to production on Android and maintained through multiple release iterations

Finance App — Expense Tracker

Flutter · Dart · Supabase

- Built a cross-platform expense tracker with multiple chart views, Supabase cloud sync, and offline-first support

Ghumo — Pakistan Travel Explorer

Flutter · Dart · Google Maps API — Published as Android APK

- Built a travel discovery app featuring interactive maps, live weather, and hiking-trail data

Experience

Intern, Digital Learning & Innovation — Aga Khan Education Service, Pakistan (AKESP)

Jun 2026 – Aug 2026 · Karachi

- Conducted primary research (site visits, structured interviews) across AKESP South Region's four Karachi schools to document ICT infrastructure and curriculum gaps, authoring an 8-page article with a five-year AI integration roadmap
- Proposed and prototyped Teacher Assistant AI, a web tool giving students real-time coding hints and teachers an AI-reviewed submission dashboard, backed by CHI 2024 research and a working Figma prototype

Education

BS Software Engineering — Indus University, Karachi (2022 – Jan 2026)
Intermediate (Pre-Engineering, Computer Science) — Fatimiyah Boys College, Karachi (2019 – 2021)
